## SoftForge Newsletter

### JULY UPDATE

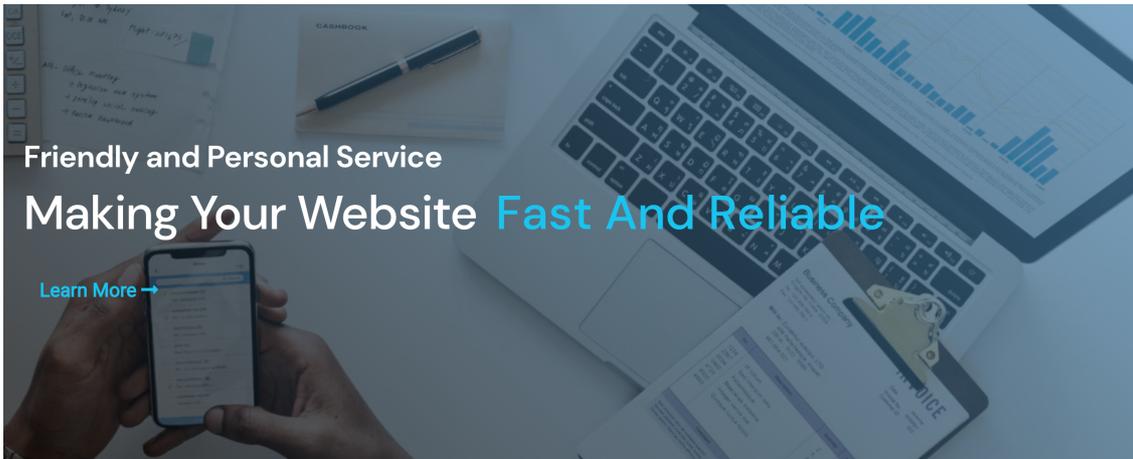

In our July newsletter, we will introduce our new SoftForge website, we will also show our technology shift to using Yootheme Pro2.

Conditional fields by Tassos is another piece of software we will be using and will discuss in this newsletter.

We will also include LawInSport who have had a relaunch to their site.

The latest update of Joomla - Joomla 3.10.

## SoftForge Website Relaunch

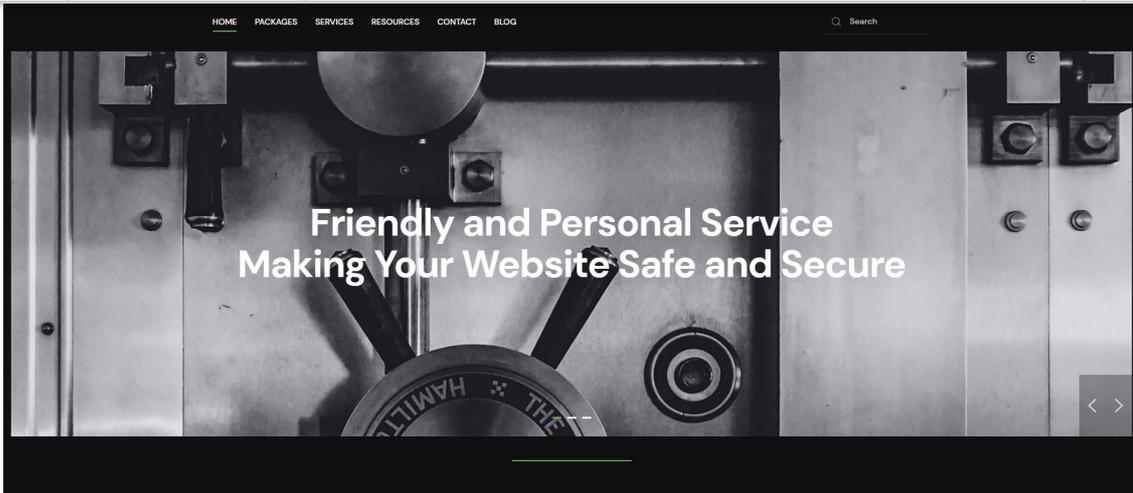

11 Years of Trading

23 Years Web Experience

125 Websites Hosted

232 Domain Names

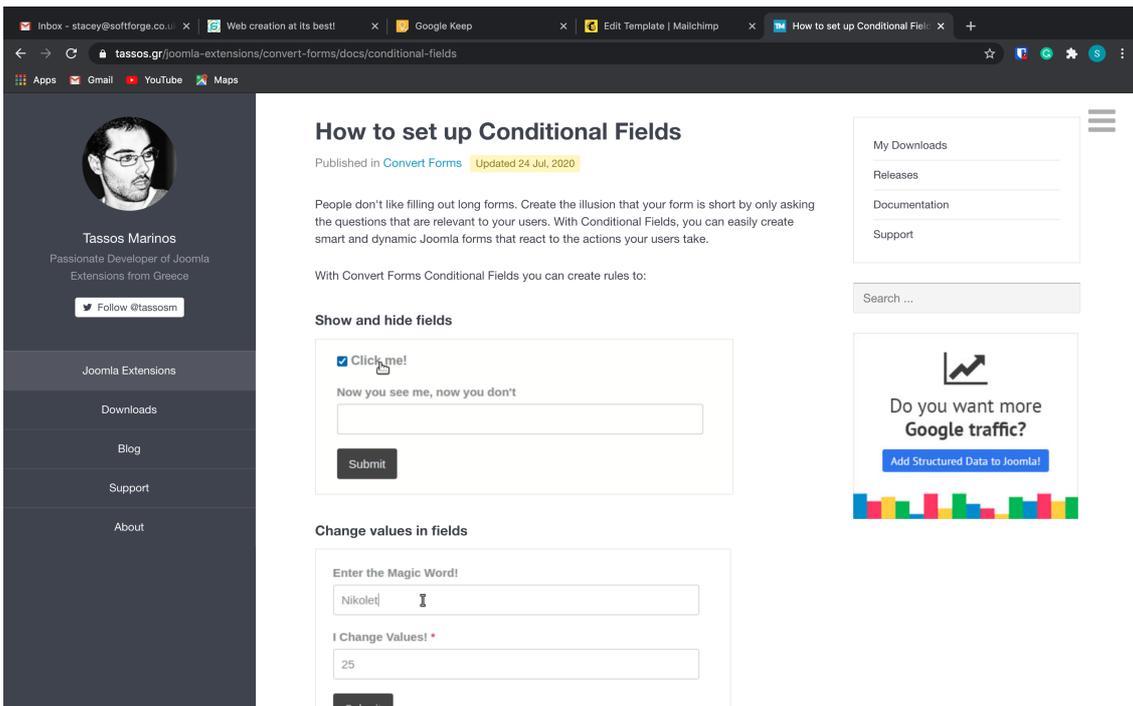

We have been using Yootheme Pro2 to create a brand new look for our [SoftForge](#) website.

This allows us to pull in content which is filtered on not only the usual categories and tags but also custom fields. It can even bring back articles in a category view that match very specific criteria.

For example, show all articles from the category 'animals' where the title has the word 'cat'.

## Tassos Conditional Fields

The new conditional fields in convert forms bring a whole new level of sophistication.

relevant questions showing revealing the new choices as and when they make their selections. This leads to fewer forms being abandoned before the finish. If you need the forms on your site to be streamlined please contact us - [stacey@soffforge.co.uk](mailto:stacey@soffforge.co.uk).

## Joomla 3.10

Joomla! Upgrade compatibility check completed

### Extensions Reported as Compatible.

Extension Name	Type	Enabled?	Compatible Version	Available Version	Installed Version
YourSites Enterprise Package <span>📄</span>	package <span>📄</span>	✓	1.12.1	1.12.1	1.12.1
Admin Tools package <span>📄</span>	package <span>📄</span>	✓	5.7.4	5.7.4	5.7.4
file_fof30 <span>📄</span>	file <span>📄</span>	✓	3.6.2	3.6.2	3.6.2
Joomlashack Framework <span>📄</span>	library <span>📄</span>	✓	1.6.4	1.6.4	1.6.4

### Extensions Probably Compatible.

Extension Name	Type	Enabled?	Compatible Version	Available Version	Installed Version
PWT ACL - Package <span>📄</span>	package <span>📄</span>	✓	2.5.4	3.3.4	3.3.4
YourSites Client Package <span>📄</span>	package <span>📄</span>	✓	1.8.0	1.8.0	1.12.1

### Extensions Requiring Upgrades to be Compatible.

Extension Name	Type	Enabled?	Compatible Version	Available Version	Installed Version
Akeeba Backup package <span>📄</span>	package <span>📄</span>	✓	7.3.0	7.3.0	7.2.2
file_fef <span>📄</span>	file <span>📄</span>	✓	1.1.0	1.1.0	1.0.13
Action Log - Admin Tools Log User Actions <span>📄</span>	plugin <span>📄</span>	✗	1.12.1	1.12.1	1.0

### No Compatible Version Information From Update Server

Extension Name	Type	Enabled?	Compatible Version	Available Version	Installed Version
PWT Siteman - Package <span>📄</span>	package <span>📄</span>	✓		1.4.2	1.4.2

Above you can see the output for our development site showing what extensions are compatible with the new Joomla 4 and which are not. We are able to show this for all of our sites using the commercial extension 'your sites'. With the release of Joomla 3.10, all Joomla sites will have this ability although not with the same detailed information. The developers of this component gifted the technology to the Joomla core. When Joomla 4 is ready we will be using this technology on all of our sites to guide us to know when it is possible to convert a site from Joomla 3.10 to 4.0. This will be a migration so it will involve a certain amount of paid work but the

This month saw the relaunch of LawInSport one of our larger clients who have been with **SoftForge** for over a decade. We used the new Yootheme Pro template to achieve this clean magazine site look.

*"It has been great working with Softforge through our website upgrade. SoftForge was excellent at working through all the key considerations and testing before we launched the live relaunched site, which saved us time and brought some unexpected benefits through improved functionality and layout improvements. We are delighted with the end result."*

Sean Cottrell  
Owner

If you think your site could do with a relaunch then please do let us know, as with the new Yootheme templates and all the other components that **SoftForge** utilise with making a site can really make a difference.
